■ EXPERIENCE

Master Plumber / Service Manager

Mar 2017 – Present

Buckeye Plumbing & Drain · Columbus, OH · United States

Run the service side of a 9-truck shop and pull master-license permits for the company.

- Dispatch and back up **6 service techs**; ride along on complex calls — sewer replacements, backflow, gas lines, tankless conversions.
- Estimate and sell repipes, water-heater swaps, and bathroom remodels; close rate around **70%**.
- Liaison with city of Columbus inspectors and the Health Department on backflow testing and permitting.
- Cut comeback rate on installs by standardizing the materials list and a post-job checklist.

Journeyman Plumber

Jun 2010 – Feb 2017

Scioto Mechanical Contractors · Dublin, OH · United States

New construction and tenant build-outs — apartments, schools, a hospital wing, restaurants.

- Set underground, roughed in DWV and water, installed fixtures and trim, pressure-tested systems.
- Ran medical gas and lab waste on the hospital project under a certified brazer's supervision.
- Read isometrics and coordinated routing with HVAC, sprinkler, and electrical in tight ceiling spaces.

Plumbing Apprentice

Aug 2006 – May 2010

UA Local 189 — Apprenticeship · Columbus, OH · United States

Five-year registered apprenticeship — **10,000 OJT hours** plus night school. Rotated through service, residential, and commercial crews.

■ EDUCATION

Certificate, Plumbing Technology

Aug 2006 – May 2010

Columbus State Community College · Columbus, OH · United States

Classroom side of the UA/PHCC apprenticeship — code, isometric drafting, water supply and DWV sizing, backflow prevention, and OSHA construction safety.

High School Diploma

Aug 2001 – May 2004

Belmont High School · Dayton, OH · United States

Two years of building-trades vocational coursework. Worked summers and weekends with a family friend's plumbing outfit.

■ PROFESSIONAL SUMMARY

Ohio-licensed master plumber with 17 years across residential service, new construction, and light commercial. Runs service trucks and rough-in crews, sizes DWV and water systems off plan, and handles permits and inspections end to end. Known for clean installs, straight talk with homeowners, and finishing punch lists without callbacks.

■ TECHNICAL PROFICIENCIES

Systems: Potable water, DWV, storm, hydronic heating, gas piping, sump & sewage ejectors, water treatment

Materials & Methods: Type L/M copper, PEX-A/PEX-B, CPVC, PVC/ABS DWV, cast iron no-hub, ProPress, soldering, brazing

Tools & Equipment: Drain cameras, sectional & drum machines, hydro-jetters, press tools, pipe threaders, pressure test gauges

Codes & Standards: Ohio Plumbing Code (IPC-based), local Columbus amendments, OSHA 1926, EPA cross-connection rules

■ EXTRACURRICULAR ACTIVITIES

Apprentice Mentor

Jun 2015 – Present

UA Local 189 Apprenticeship · Columbus, OH

Take apprentices on my service truck, sign off field hours, and walk them through diagnostics, code, and how to talk to customers. Four mentees have made journeyman so far.

■ VOLUNTEERING

Volunteer Plumber

May 2018 – Present

Rebuilding Together Central Ohio · Columbus, OH

Donate a few Saturdays each spring fixing leaks, replacing water heaters, and updating fixtures for low-income and elderly homeowners during the annual rebuilding day.

■ AFFILIATIONS

Member

2017 – Present

Plumbing-Heating-Cooling Contractors Association (PHCC) — Central Ohio

Journeyman Member

2010 – Present

UA Local 189 — Columbus

■ POWER STATEMENT

Re-piped a **32,000 sq ft assisted-living facility** from galvanized to PEX and copper while the building stayed occupied — phased the work floor by floor, kept water outages under two hours per wing, and brought the job in **under budget by \$18K**.

■ ACCOMPLISHMENTS

- Grew the service department from 3 trucks to 9 over five years as service manager.
- Re-piped a 32,000 sq ft occupied care facility under budget with no displacement of residents.
- Cut install callbacks by roughly half by introducing a standard post-job checklist.
- Mentored four apprentices to journeyman; trained the shop on the 2024 backflow testing requirements.
